Members Absent: ---

Topics Discussed:

- We discussed about different problems that are being faced by the business area we have chosen during the first meet and how our application may address them.
- Analysis of market and potential customers that we expect to reach.
- Discussion about the platform we are going to use to best develop our program. It will be further discussed during the upcoming weeks as we make the proper researches.
- We discussed about our first interaction with github and many options we can and are expected to use during the project.

Decisions Made:

- Research about different technologies and select the most appropriate one.
- Contact the client so we can properly analyze and then satisfy their requirements.
- Think of platform we are going to use.
- Each member will create his/her Personal Log on github where each of them is going to write what he/she is doing and his findings. Manager and all members can keep track of other members Personal Log.

Tasks Assigned:

All members are expected to do research on platform and technologies we are going to use. Get some information and create an idea about different libraries.
